CARD.

LONDON BOOKS. The subscriber some time since gave notice that he expected to visit Europe the past summer, for the purpose of making arrangements to import into the United States, books in every language at low prices, and to make such Agents there as he could rely upon to procure the best editions and attend promptly to his orders in purchasing such Works as were wanted and best adapted to this country. Overtures at the same time were making to effect that object without the necessity of his going thither. He has now the pleasure to state, that by the interference of friends in England, such arrangements have been made, and are now making, as will warrant him in saying, that he is now enabled to supply the United States with Foreign books, (particularly the CLASSICS, ECCLESIASTICAL HISTORY, and those relating to the ARTS and SCIENCES.) upon as good, and in many instances, better terms, than they have ever been offered ; and to show the assertion is well founded, he would observe, that he has the Agency of several of the first and most extensive establishments in London, who have most liberally reduced the prices of their books to meet our additional duties, which enables him to receive Orders for their books and deliver them in New-York not to exceed *12 $\frac{1}{2}$ per cent. above the London prices, even their *New Publications*. Catalogues may always be seen at his *Architectural and Classical Book-Store*, 86 Broadway, up stairs.

The rare and curious books he has lately received from Germany, and the additional supply of ITALIAN, FRENCH and SPANISH books hourly expected together with the extensive collection of GREEK and LATIN CLASSICS and MISCELLANEOUS PUBLICATIONS in store, it is hoped will attract the attention of the literary and scientific gentlemen in every part of the United States.

Wm. A. COLMAN.

New-York, December 1825.

* * All Orders must be accompanied with the Cash, and the difference of Exchange will always be required ; but in many cases where it is very doubtful if the work can be had, and the money is *not* sent, the interest will be charged in addition to the difference of Exchange from the time of shipment in London or Germany.
